Professional Summary

A passionate front-end software engineer and college student majoring in Computer Science with industry level skills aimed at customer satisfaction.

Education

College of Engineering and Computer Science

Orlando, Florida

University of Central Florida

2025

- Dean's List Student
- Working and studying full-time

Experience

Burger-U

Line Cook

Nov 2022 – Current

- Part-time college job. Working here as a cook during peak season has taught me new ways to deal with constant pressure for lengthy periods of time.

Private

Frontend Simplified

Aug 2022 – Feb 2023

- Frontend software engineering course designed to learn industry level coding skills in preparation for top-tech companies. With over 40,000 students, Frontend Simplified creates successful and high-paying careers in the tech industry.

McDonald's

Manager in Training

Feb 2021 – Aug 2022

- Part-time high-school job to fund college. As a manager in training, being a team player was huge. I assigned crew members shift positions, oversaw multiple operations, and ensured customer satisfaction.

Projects

Altitude Motors

HTML, CSS, JavaScript, React.js

- Altitude Motors is a mock online exotic car dealership. Coded fully in React.js, power and visual appeal is the goal for this project. Utilizing React routes and hooks, this website is fully dynamic and responsive to all screen resolutions.

Online E-Commerce Library

HTML, CSS, JavaScript

- Mock online library e-commerce site with a pleasing user experience. With full support for all device resolutions, clean transitions and good organization, this website is welcoming to all users.

E-Portfolio

HTML, CSS, JavaScript

- My first E-Portfolio that I've created to present my growing skills in website development. With full support on all devices, my E-Portfolio demonstrates industry-level mastery in multiple technical languages.

Technical Skills

Proficient with: [HTML, CSS, JavaScript, React.js, Java, C]

Familiar with: [Lua, Python]
